NEWS FROM WASHINGTON.

THE COMMISSIONER OF PENSIONS MAKES AN INTERESTING REPORT.

The Amount Paid for Pensions During the Year and the Number of Persons on the List—Government Officials Returning to Washington—Other News.

WASHINGTON, Sept. 23.—The commissioner of pensions, under date of September 21, has filed with the secretary of the interior his report of the operations of the pension bureau for the fiscal year ending June 30, 1885. The report shows that on June 30 last, there were 605,783 pensioners on the rolls, composed of 265,804 army invalids; 80,162 army widows, minor children and dependent relatives; 2,943 navy invalids; 1,878 navy widows, minor children, etc., and 1,539 survivors of the War of 1812. There were 13,000 pensioners of various descriptions on the rolls on June 30, 1884, showing a decrease of 1,000 during the year. In the class of \$315, Twenty-nine original claims have been filed in this class during the year; 304 new widow pensioners have appeared on the rolls; 40,807 new pensioners were added to the rolls during the year; 2,239 were restored to the rolls; 22,069 pensioners' names were dropped from the rolls on account of death, re-marriage, frauds, etc., leaving a net increase to the roll of 30,685 names.

The annual value of each pension has been increased a sum of \$1.50 above the previous year. The aggregate annual value is \$44,705,027.44, being an annual value of \$6,017,041.51. The amount paid for pensions during the year was \$61,740,000, and the difference in the amount paid and the amount value of the pensioners increased and arranged pensions paid this year. Since 1861 \$391,102 invalid claims have been filed; \$34,700 claims of widow and dependents; \$15,834 for pension on account of service in the Civil War; \$1,500 for pension on account of the first-class 220,453, and of all other classes 22,018, making a total of claims allowed since 1861, \$21,754. It will thus be seen that the amount of pension paid to the pensioners placed upon the rolls has died, or pension has ceased by reason of arrival at age, re-marriage, etc., etc. One hundred and six thousand four hundred and sixteen certificates of all kinds, including 79,989 incoming certificates, were issued to pensioners during the year, ending June 30, 1885, and were issued during the past year, showing a vast increase in the work of the office.

The work of the special examination division of the pension bureau has been greatly increased. The commissioners received in their sessions as to legislation contained in their report of the previous year. Concerning the Mexican war pension he says that the subject of pensions to soldiers of that war is before the commissioners, and that they have not yet made out one word in the way of arrangement; that that point has been passed.

This morning, during the absence of that person, Stephenson broke the strap and got away. He clattered out of the third story window, and, after a few moments, alighted on the Dunham house, his supper and attempted to leave without paying for the same. He was pursued to the corner of Third and Homestead streets, where he fell on the sidewalk and hurt his head. The officer who had to apprehend him, he had been confined, after a hasty manœuvring, to his bed. During a lull interval he gave the name of Albert Stephenson, of Chillicothe, O., and said he was boarder with Mr. Williams, who was of the 37th John street. He has been very violent, and required a guard constantly.

This morning, during the absence of that person, Stephenson broke the strap and got away. He clattered out of the third story window, and, after a few moments, alighted on the narrow steps, where he got away. He was almost nude, having nothing to hide his unshaved and a short undershirt. His personage attracted the persons on the sidewalk, who, it is said, were in a large crowd around him.

Standing up on the ledge the constable, having got his excited listeners for some time, seeing the guard and other hospital employees making efforts to reach him, began to climb over the fence and get into the yard, and, as he went over the fence, he fell on the ground and was soon taken to the hospital and taken to the ward. He was a very tall, thin, and gaunt man, and his legs were broken by his fearful plunge. Other injuries were sustained that will probably cause his death. He is but thirty-three years of age and has a brother in this city who cannot be found.

A Terrible Conflict Between a Farmer and a Bull Results Fatally.

LOUISVILLE, Sept. 23.—Frederick Meier, a farmer, went into his meadow wearing a red shirt. A young bull, which had been quietly feeding in the meadow, looking him over and seeing the shirt, charged at the farmer.

The latter attempted to run, when the bull, with a terrific combat ensued, the farmer dodging, and occasionally striking the bull with a hoe.

But his resistance was soon over, and the bull, with a loud roar, charged him and the farmer went down, with his head torn wide open. The bull then stamped and mangled the poor fellow into a jelly and was still at his victim when a neighbor, who had been watching the combat, ran up and struck him with a tree and stoned him to death.

He was then killed with an ax. Meier breathed for a few moments after being taken to the house and then expired. He leaves a wife and a large family.

DAILY EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.

ROSSER & McCARTHY,
Proprietors.

THURSDAY EVE., SEPT. 23, 1896.

The State Temperance Convention is in session at Lancaster.

The State has paid \$3,000 to the Lexington artillery company for services rendered in Rowan County.

GENERAL JOHN A. LOGAN is booked to fire the opening gun in the coming campaign for the Republicans of Pennsylvania.

The Salvation Army of Ashland will not be known by that name any longer. They now say they are Evangelists and will fight under that banner hereafter.

The news from the counties in the eastern part of the district is encouraging. The Democrats are enthusiastic in their support of Judge Wall, and are going to win.

The Enterprise says "the Democrats fear George M. Thomas." This is rather refreshing. Doesn't our neighbor know that the Democrats fear nothing in the shape of a Republican?

The Republicans of Carter and other counties in that part of the district are disengaged over the outlook in the race for Congress. They regard their late convention in this city as worse than a farce.

Out in Illinois, "everybody is for Cleve-land and his administration," says Congressman Springer. He adds: "The President grows in popular favor every day, and the country is emphatically with him."

"He laughs best who laughs last," says the Enterprise. This may be true but the Republicans will not have an opportunity to laugh this time, as the Democrats purpose keeping it up from now on.

SENATOR BECK met with a warm reception at Nicholaville the other day. He is still opposed to Congressmen acting as attorneys for corporations, and says if sent back to the State he will use his efforts to break up such business.

THE BULLETIN says "Democrats should be vigilant and active from now on." Such and other vermin might take this advice as the winter comes on—Republiques Enterprise.

We suppose the editor of the Enterprise speaks from a personal acquaintance and knows what he is talking about when he adds the above comment.

THERE are 517,310 Odd-fellows in the world at the present time, an increase of over 300,000 in the past two years. The increase in the revenue of the order for the same period is over \$4,000,000. In the past year more than \$830,000 have been paid the families of deceased members, leaving a balance of over \$700,000.

"THREE hundred and seventy-five million persons are annually carried over the railroads of this country; but 400 of this number are killed, and only 1,800 meet with injuries more or less severe. Of these, 800 of the injured and 200 of the killed may be charged to causes for which the railroad companies are more or less responsible, while the rest are due to the carelessness of the passengers themselves."

The Enterprise is again mistaken. The delegate from "poor, pitiful, little, murderous Rowan" who hid \$10,000 for the Republican nomination for Congress the other day is not named George S. Stacey. There was no such named delegate present. As to the bid of \$10,000, the BULLETIN got its information from a newspaper man, who represented his county in the convention. The information was volunteered and was no doubt true. The Enterprise probably knows as much about the bid as it does about the party who made the bid.

"THE only burdensome war taxes remaining," says the New York World, "are those imposed by the tariff beyond the needs either of revenue or protection. The internal taxes levied during the war have been gradually repealed, until now there remain only those upon spirits, wine and tobacco, and they are so light that their abolition would not make these articles perceptibly cheaper to consumers. They are taxes, furthermore, that every one can abolish for himself. But, where as the revenue from internal taxes has been reduced from \$300,000,000 in 1866 to \$112,000,000 in 1885, the tariff still applies to over four thousand articles, its average rate is but 2½ per cent, less than the highest rate of the war period, and it produced last year \$2,000,000 more revenue than in 1866."

"Speaker Carlisle is right in saying that the next reduction will come in the tariff. And it can be made to the equal advantage of the working people and all legitimate industries. No country was ever injured by relieving it of unnecessary and extravagance-breeding revenue."

The Democrats of this district are well enough acquainted with Judge Thomas and his ways to know that they have a wily politician to deal with. Should Thomas decide to make the race, and this will no doubt do, the Democrats must keep their points guarded, if they do not wish to be surprised and defeated. True, the Republicans in this district are not in the best condition to make a strong fight. They are discouraged. A special from Owingsville portrays the feeling in Bath County. It says:

"The Republicans of this place are somewhat disengaged over their belied-out prospects in the Congressional campaign. The Mayfield convention, of which much had been hoped in the way of starting their candidate off with a boom, resulted only in a failure. The nomination was tendered to three men, two of whom declined outright. The failure of the third, Judge George Morgan Thomas, either to accept or decline, has caused many to consider the Republicans of the whole district with his icy reserve. It is understood that the Republican nominee left on a pleasure trip to Kansas as soon as possible after the adjournment of the convention that nominated him, and anything like an active campaign on his part is despised by his friends here."

If reports are true, there is trouble brewing in Rowan County once more. The latest report is that a conspiracy has been formed to take the life of Colonel Z. T. Young and several others. The "gang" was to receive one hundred dollars for putting Young out of the way, and a less sum for the scalps of several others. The conspiracy leaked out in some way, and the to-be-victims were put on their guard. It is said that Colonel Young will remove either to Mt. Sterling or Vancburg, rather than have his name connected any longer with the troubles in "poor, pitiful, little Rowan."

Comments on the Contest.

Judge G. S. Wall, of Mayville, received the Democratic nomination for Congress in the Ninth district. He is a good speaker, a fine lawyer, a splendid Democrat, an excellent man, and if all Democrats will do their duty he will be elected.—Mt. Sterling Sentinel-Democrat.

There are only a few excuses that will allow a good standing member of a party to vote against its nominee. When there is a personal feeling between you and the nominee; when the nominee is not the choice of the party, and when his public or private character makes him unworthy of your support. Garrett S. Wall is an true a Democrat as there is in the district; he is as nice a gentleman as there is in the district, and is unquestionably the choice of the Democracy of the district. Now, where can any Democrat in Robertson get an excuse for scratching him? Instead of kicking some half-hearted would be leaders, your blow shall be directed at Judge Wall and the Democratic party.—Robertson County Democrat.

Says the Western Argus of Frankfort: "After a gallant fight Judge Garrett S. Wall, of Mason County, has received the Democratic nomination for Congress in the Ninth district, defeating two able and worthy competitors. Judge Wall was a true and brave soldier in the Confederate army, and the people of Mason County have heretofore honored him by electing him to the office of County Attorney and County Judge. He is a simple pure Democrat and is popular with all classes in the district, Democrats and Republicans alike. The old Ninth for the past two terms has been represented by Republicans, but if every Democrat will now go to work for Judge Wall the district will be redeemed and once more placed in the Democratic column."

Agricultural.

After the fruit is set, the earlier it is thinned the better.

A strong nest of humble bees in a clover lot is valuable for their work in fertilizing the flowers and insuring seed.

The imports of wool into Great Britain are valued at \$125,000,000, almost the same value as the cotton imports.

Rust in wheat may be caused by excess of heat and moisture, making a sudden flow of sap which can not be properly elaborated.

The average of wheat at the Cape of Good Hope is seven and one-half bushels to the acre. All sorts are sown thin, otherwise they would run to straw under the forcing influence of an African sun.

We are told that "most of the tobacco grown in North Carolina tobacco factories are shipped to Germany to be manufactured into snuff for the German peasants."

Successful New Jersey gardeners apply annually about ten tons of well-rotted barn-yard manure per acre to their strawberry fields, putting it on late in the fall just before a hard freeze.

When orchard grass is allowed to stand until the seeds are nearly matured its value for feeding is greatly impaired, much more so proportionately than herbage grass. It should be cut while in bloom.

It is claimed that lettuce planted early in the spring between the rows of strawberry fields will protect the latter from the ravages of white grub, which prefer the roots of the lettuce to those of the strawberry.

Indiscriminate pruning does so much harm to grape vines that perhaps as good advice as can be to many is to let vines alone during the summer, except to keep them on trellis, and prune only in fall or spring.

THE caissons for the piers of the new bridge at Cincinnati will contain 1,250,000 feet of oak timber. Their dimensions are eighty-five feet five inches by forty-four feet nine inches. They will require eleven thousand barrels of cement, two thousand yards of sand and ten thousand yards of broken stone. One hundred and fifty men are now employed on the work and when operations are at their height, four hundred and fifty to five hundred will be worked.

HUNTINGTON's new line from Newport to Maysville is already causing competition among the railroads around the mouth of the Licking. For several years Mr. E. L. Harper, of Covington, has been endeavoring to persuade the L. & N. managers to run a side track to his mill in Newport. Mr. Harper claims that to do so would cost the road nothing. Since the Newport and Maysville railroad has made its appearance the L. & N. people have changed their notion, and have started the work of laying a track into the mill yard, and will have completed it in a few days. Huntington proposes to lay another track into the yard.—Louisville Courier-Journal.

PRICES TO LOW.

THE Western Tobacco Journal notes the recent sale of some white burley tobacco in county at \$3 and \$3 50 per hundred, and adds: "Such prices do not certainly pay. Planters had better hold on to their old crops than sell at these prices, and give special attention to the cure of this year's crop, throwing away all the trash and ground leaves. It will bring more value as manure, as to throw it on the market will only aggravate present conditions; and besides, it will assist in regulating supply, increasing the value of both crops."

ANOTHER EARTHQUAKE.

THE SOUTH AND EAST SHAKEN UP BY THE EARTH'S CONVULSIONS.

The First Shock in Columbia in Sixteen Days—But Very Little Damage Done Besides Frightening the People—Two Shocks in Connecticut—Other Places.

COLUMBIA, S. C., Sept. 23.—The first shock of earthquake of any consequence that has been felt here for sixteen days, occurred the day before yesterday, at half past 10. The shock lasted about twenty seconds, and was accompanied by a loud rumbling sound.

Many persons, particularly ladies, were considerably alarmed, and started to run from their houses in their night clothes. A heavy wind and thunder storm passed over the city shortly before the shock.

At Summerville the shock was very severe. A school teacher, however, from Charleston, went to stay at a house for his family. He says that the women were greatly alarmed by the shock this morning and that he cannot keep his family there any longer. He predicts that if the condition continues the earth conti-

nues to move the roads of the state will be wrecked. No damage was done in Summerville, except to unfinished or cracked buildings. Some of those who had returned to their homes are again leaving.

At Charleston.

CHARLESTON, S. C., Sept. 23.—The people of Charleston were startled at ten minutes past five by another shock of earthquake. It seemed to last about one minute on the night of the 18th, and its duration was about five seconds. Within a few moments after the quake the streets were alive with people awoken from their slumber, but when they found out the cause for the commotion, hastily fled, many returning to their homes. It is pleasant to note that the shaking up has left no evil impression on the minds of the people. The shock appears to have been quite general throughout the lower and middle sections of the state and in portions of Columbia.

Two Shocks in Connecticut.

BRIDGEPORT, Conn., Sept. 22.—Two distinct shocks of earthquake were felt at 6:30 in the morning. Residents of North Washington avenue, on the outskirts of the city, heard a jolting sound, and the evidence is corroborated by many others, that the shock was so violent that windows and glass and gas chandeliers swinging to and fro at the same hour. It was so early in the day that few people were stirring, and consequently there was not a general knowledge of the occurrence. The sensation is described as precisely that of a year ago, when the tremor was much greater. There was an interval of a minute between the two shocks.

At Augusta, Georgia.

AUGUSTA, Ga., Sept. 23.—A distinct shock of earthquake was felt here at 4:30 a. m., and the uneasiness and dread existing two weeks ago have again partially removed. The people have been loath to leave the safety of their houses, but beyond a general fright and an astonishing revival of religious exercises in the colored churches, no damage was done. The report comes in from McLemore, that the buildings which were so seriously shaken by the big earthquake of the 31st were thrown down by the morning's shock. They had not been inhabited, however.

VETERANS OF THE LATE WAR.

First Annual Reunion of the Grand Army of the Republic, Indianapolis.

LANCASTER, Pa., Sept. 23.—What a big day for the veterans of the late war in this city and vicinity. The Grand Army posts of this county are holding their first annual reunion here and the town is crowded with soldiers and their friends.

On the 22d, Lancaster began to put on a holiday appearance, and the decorations are prettier and more extensive than they have been for many years. The railroad trains arriving in the town have all had special cards which were well received.

On every hand the national colors can be seen and the business places, as well as many private houses, present brilliant appearance.

At several points on the parade ground the veterans were gathered in groups, while hundreds stood from the different buildings. They bear the inscription, "Welcome comrades," "welcome veterans, etc."

The display of bunting, evergreens, Grand Army banners, flags, etc., have been put up in more than a thousand veterans. In the afternoon McGrath's park was filled to witness the wheelbarrow and sack races by the soldiers. The festivities end with speeches and a camp fire at the risk.

Down Law Test Case.

TOLEDO, Ohio, Sept. 23.—Bowing Green, the seat of Wood county, which recently had the dubious honor of being the home of Vistor Fouch, a saloon keeper, was tried for violating the law. The jury returned a verdict of guilty. The supporters of the law were jubilant, as the case was highly contested and was looked upon as a test. A bill of indictment was filed against the attorney, and the case will be appealed to the supreme court. The defense was that the saloon keeper was only the agent of the Flinley Brewing company of this city. That company had a license, and the United States' internal revenue law said that the Dow law could not prevent the sale of this measure of beer in quantities of one gallon and upwards. This was the point on which the defense rested.

There are several towns in this section of the state which have adopted local option, and here this mode of evading the tax has been adopted.

Law Test Case.

GREENSBORO, N. C., Sept. 23.—The second annual session of the right worthy National Grand Council Independent Order of Good Samaritan and Daughters of North America, continued its deliberations to-day. The report of Julia A. Arthur, of Kentucky, superintendent of the order, showed that the number of that department is 3,000, embraced in forty lodges in various states, and having \$5,000 in the aggregate in the treasury. The following officers were elected for the ensuing year: President, Mrs. J. A. Arthur, of New York; right worthy national grand chief, Jacob A. Weston, of Maryland; right worthy national guard secretary, Amelia S. Carter, of Delaware; right worthy national guard treasurer; Julia A. Arthur, of Kentucky; superintendent of juveniles.

YOUR HAIR

should be your crowning glory. Ayer's Hair Vigor will restore the vitality and color of your hair to that has become thin and faded; and, where the glands are not decayed or absorbed, will cause a new growth on bald heads.

MAY the youthful color and vigor

of the hair be preserved to old age! Read the following, from Mrs. G. Norton, Somerville, Mass.: "I have used Ayer's Hair Vigor for the past 80 years; and, although I am upwards of 60, my hair is as abundant and glossy to-day as when I was 35."

BE assured, that a trial of Ayer's Hair Vigor will convince you, the hair regains its youthful color and vigor.

Dr. M. E. Goff, Leadville, Colo., writes: "Two years ago, my hair having almost entirely fallen out, I commenced the use of Ayer's Hair Vigor. To-day my hair is 20 inches long, fine, strong, and healthy."

RENEWED and strengthened

by the use of Ayer's Hair Vigor, the hair regains its youthful color and vigor.

Dr. H. F. Williamson, Davison College, Mecklenburg Co., N. C., writes: "I have used Ayer's Hair Vigor for the last ten years. It is an excellent preservative."

BY the use of Ayer's Hair Vigor, Geo.

B. Dabuham, Waterloo, Mo., had his hair restored to its original healthy condition. He was nearly bald, and very gray. He writes: "Only four bottles of the Vigor were required to restore my hair to its youthful color and health."

USING Ayer's Hair Vigor cures dandruff of the scalp.

F. H. Foster, Princeton, Ind., writes: "I had hair troubled for years with a disease of the scalp; my head was covered with dandruff, and my hair dry and harsh. Ayer's Hair Vigor gave me immediate relief, cleaned the scalp, and rendered the hair soft and pliable."
